Yes we can help Tuesday with the priority. Also the data came in from the State Friday late and the copy room is going to scan into the L share drive Dimock folder until we can get it loaded on the portal

Rich,

Do you have a list of the sampling locations? Info which would be helpful would be residence names, addresses, and priority of the sampling order (i.e. which houses do we want to sample first). If you don't have this info handy or you want to wait to compile this info, please let me know.

Thanks,

Suddha Graves
